LED

FLEXIBLE LED TAPE LIGHT KIT

AVAILABLE | 1m | 2m | 4m

INDOOR

IP65 OUTDOOR • AIRTIGHT

FEATURES & BENEFITS

- An energy efficient light source that is tiny enough to fit into small spaces, or easy to conceal.
- The linear light source provides contour and even light distribution.
- LED lighting is cool to touch. It is one of the most energy efficient sources of light available today. LED contains no mercury and does not produce harmful ultraviolet (UV) light.
- The LED technology is powered by a power supply (driver) which plugs into a standard 120 volt AC outlet. Low-voltage power is supplied to fixture making it a safe and efficient light source.
- Add additional lengths of lighting to single power supply (driver) to accommodate longer runs.
- Suitable for indoor use.

ALL-IN-ONE PACKAGE

(1) LED tape
(1) Power feed
(1) 6W plug-in driver with 6' cord and rotary switch
Mounting hardware
