Bellhanger Bits

Overview

Install small wire systems easily and efficiently with the Milwaukee® Bellhanger Bit. Designed for installing all types of small wire systems including computer, security, phone, and cable, Milwaukee Bellhanger Bits provide extra reach where needed and a hole in the tip to help pull wires through holes. The bits feature aggressive tip geometry for faster cutting and non-stick, coated flutes for fast chip removal and reduced binding. The 3-Flat Secure-Grip™ shank prevents the bits from spinning in the drill chuck. Milwaukee Bellhanger bits are available in 12", 18" and 24" lengths.

Features

- Versatile: Provides a pull-through hole in the tip for easy installation of small wire systems
- High-speed drilling: Features an aggressive tip geometry and coated flutes for fast cutting and debris removal
- Reduced slipping: 3-Flat Secure-Grip™ shank holds the bit firmly in the drill chuck

Overview

The Milwaukee® Cable Bit is ideal for installing small wire systems in unreachable spaces. Milwaukee Cable Bits have an extra long, flexible steel shaft that lets you reach behind the wall with greater precision and ease when installing all types of small wire systems, including computer, security, phone, and cable. The bits feature holes in both ends to pull the wire through after drilling. Use the Milwaukee Placement Guide (48-08-0275) to properly locate the hole within the interior of the wall. Milwaukee Cable Bits are available in 54" and 72" lengths.

Features

- Extended drilling: Extra long, flexible steel shaft permits drilling between and behind walls
- Versatile: Provides pull-through holes in both ends for easy installation of small wire systems
- Reduced slipping: 3-Flat shank holds the bit firmly in the drill chuck

SHOCKWAVE™ Lineman's Impact Auger Bits

Bore small, clean holes at any angle in a variety of materials with the economical Milwaukee® Flat Boring Bit. This premium quality Flat Boring Bit is made of heat-treated high carbon steel, so the drill point and cutting edge can be resharpened for cost savings and long life. Bore clean, fast holes at any angle in wood, plastic, plywood and Formica.

Features

- Economical: Drill point and cutting edges can be resharpened for long life
- Clean holes: Heat-treated carbon steel lets you bore clean holes quickly
- Versatile: Ideal for boring small holes in wood, plastic, plywood and Formica

Flat Boring Bit Kits

Ship Auger Bits

Overview

The Milwaukee® Ship Auger Bit drills through up to 2X the nails of competitive auger bits without needing resharpener. Drill into clean or nail-embedded wood with confidence when installing Romex wire, Pex water lines, rebar, bolts, and rope in piers, playground equipment and landscaping. The flutes are wider for maximum chip removal, even in deep holes. The polished and coated flute finish means chips won't stick to the bit, even when drilling in material that contains sap or glue. The through-center cutting design creates a more solid striking point against nails compared to the competitions' ahead-of-center and behind-center designs. The longer shaft length makes it easy to drill deeper or overhead without an extension.

Features

- Durable: Hardened, one-face 20° rake angle design enhances nail resistance, chip removal and fast, easy sharpening
- Fast chip removal: Nonstick, polished and coated flutes eliminate costly cleaning time
- Impact-rated shank: Strong enough to use with an impact wrench
