

D-SERIES Relay Modules

Convenience with long, reliable performance life

Contacts for All Applications

Constructed of different contact alloys (AgNi, AgSnO, AgCdO), the D-SERIES modules are designed to switch small, medium and high loads

Long Service Life

Clever serial contact connections and blowout magnets reduce contact erosion at loads up to 220VDC/10A

Use Flexibility

A wide assortment of control voltages from 5VDC...380VAC fit all industrial applications

Convenient Service Options

Optional LED indicator, mechanical indicator and test lever

Comprehensive Range of Accessories

Flexible in use thanks to sockets, metal clips, markers and pluggable modules (e.g. LED or Diode)

Let's connect.
