

# A SIMPLE DIMMING SOLUTION FOR YOU AND YOUR CUSTOMERS.

D703PUTC

It's truly universal,  
and it simply works.

The Pass & Seymour Harmony Tru-Universal Dimmer does something today's other so-called universal dimmers don't: **it simply works** — with every lamp, every load, and every fixture on typical residential and light commercial wiring.

Once a user selects the lamp type, the dimmer's self-calibrating technology automatically sets the minimum voltage of that lamp. That means no more flickering lights, no more frustrated customers and no more unnecessary callbacks. And because it's the one product in the category that lives up to its universal name, it dramatically reduces the number of SKUs as well.

Ideal for residential and light commercial applications, the Harmony Tru-Universal Dimmer is the simple solution to all your customers' dimming challenges.

**Self Calibration feature** allows users to select lamp type, which then automatically sets the minimum voltage for that lamp, eliminating flickering and poor performance.

**Constant memory** returns lights to previous level after a power failure.

**Preset, Single Pole and 3-Way operation.**

**Convenient operation** — combines On/Off Decorator switch with separate slider for dimming control.

**No derating required** for one- and two-gang applications.

**Green LED** glows when off to make dimmer easy to find in the dark.

**Sleek, ergonomic P&S Decorator style** matches other Decorator devices.

**Interchangeable faces** — Package comes with three colors: Ivory, White, Light Almond. Black and Brown face kits available separately.

PART NO.	DESCRIPTION	COLOR	VOLTAGE	RATING
D703PUTC*	Preset, Single Pole and 3-Way	Three Interchangeable Face Colors: Ivory, White, Light Almond	120VAC, 60Hz	Incandescent, Halogen & ELV: 700W MLV: 500VA, LED/CFL: 450W EFL: 5.5A
D703PU**		Antique Brass, Dark Bronze, or Nickel
