4-IN. LINE VOLTAGE RECESSED PROGRAM

LITELINE CORPORATION

line voltage **120V**

4-Inch Line Voltage Housings
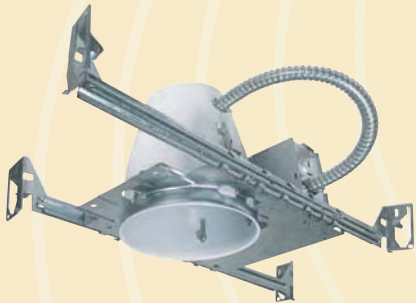

HV4-HR01-NC
4" New Construction Housing

Features
- Thermally protected to prevent over heating.
- For use with Liteline medium base lamps.
- Hanger bars are for use with T-bars or can be connected directly to the wood joist.
- Fits up to 24" joist construction / T-bar.
- Not for use in insulated ceilings.
- cUL listed for damp locations.

HV4-HR02-RM
4" Remodel Housing

Features
- Thermally protected to prevent over heating
- Quick snap on Junction Box cover for easy wiring
- Allows for Branch wiring
- Quick push-in connectors
- Dimmable when using incandescent/halogen lamps

Applications
- **New Construction, Remodel and I.C applications**
- **T-Bar ceilings**

HV4-HR05-IC
4" Housing for Insulated Ceilings

Features
- Thermally protected to prevent over heating.
- For use with various Liteline medium base lamps.
- Insulated Ceiling housing has one of the smallest boxes on the market.
- Airtight fixture.
- Fits up to 24" joist construction.
- Can be completely covered by insulation

VBE-1
Vapour Barrier Extender

Features
- Constructed of PVC, Rated for 90ºC
- Flat flange all around to allowfor better fit to joist
- Help control moisture in these areas: Ceilings, Basements crawl spaces, floors slab-on-grade foundations, and walls

Features & Benefits of 4-inch Trims
- *Cones/Baffles:* **Airtight, Baffles and Reflectors**
- *Shower:* **Fresnel, Dropped Albalite or Opal glass with Neoprene gaskets**
- *Gimbles:* **35° angular adjustment**

c(UL)US LISTED

Lamps (Line Voltage)
- **MR16 E26, CF, R20/PAR20, 50W max.**

4-IN. LINE VOLTAGE RECESSED PROGRAM

4-Inch Line Voltage Housings

HV4S-HR01-NC
4" Remodel Housing with magnetic transformer

Features
- Thermally protected to prevent over wattage re-lamping.
- For use with Liteline medium base lamps.
- New Construction housing has adjustable hanger bars with captive nails.
- Adjustable socket height.
- Fits up to 24" joist construction.
- Not for use in insulated ceilings.

HV4S-HR02-RM
4" Remodel Housing with adjustable socket height
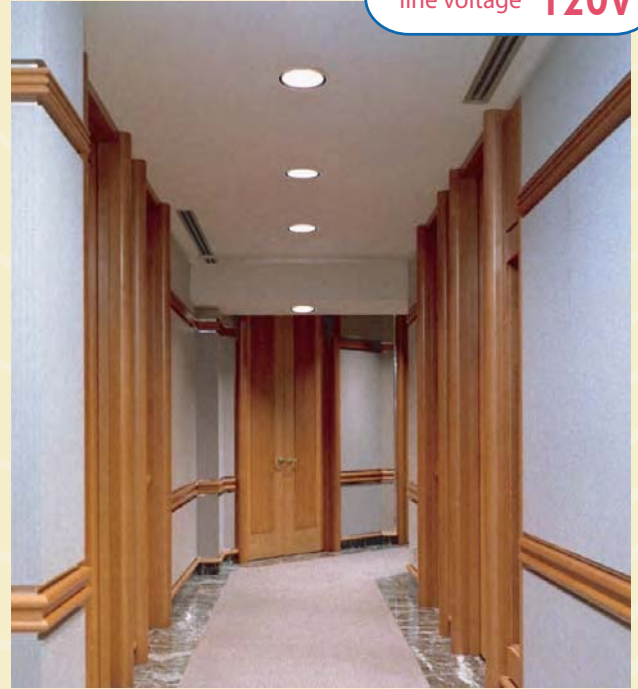

Features
- 4-knock out holes
- Thermally protected to prevent over heating.
- For use with MR16 lamps 50W max., 12V
- Low voltage MR16 bulbs provide brighter, whiter light with one third more light per watt than conventional bulb.

HV4S-HR05-IC
4" Housing for Insulated Ceilings, with adjustable socket height

Features
- Thermally protected to prevent over heating.
- For use with various Liteline medium base lamps.
- Insulated Ceiling housing has one of the smallest boxes on the market.
- Airtight with adjustable socket height.
- Fits up to 24" joist construction.
- Can be completely covered by insulation

Applications

- **New Construction, Remodel and I.C applications**
- **Insulated ceilings**
- **T-Bar ceilings**

VBE-1
Vapour Barrier Extender

Features
- Constructed of PVC, Rated for 90ºC
- Flat flange all around to allow for better fit to joist

4-Inch Line Voltage Housings

HV4-HR02C-RM
4" Remodel Housing with screw down clamp

Features
- Thermally protected to prevent over heating
- Quick push-in connectors for easy wiring
- Comes with flexible steel conduit
- Quick screw down installation
- Light weight
- Dimmable when used with incandescent/halogen lamps

HV4-HR02AC-RM
4.25" Aluminum Remodel Housing with 17" long BX cable & mounting clips

Features
- Thermally protected to prevent over heating
- Flexible conduit for use in soffits
- Light weight
- 16-inch BX cable
- Provided with 3 stainless steel spring studs
- Dimmable
- Convert to new construction by using mounting plate (P-3500) and hanger bars(HV5-5999-NCP).
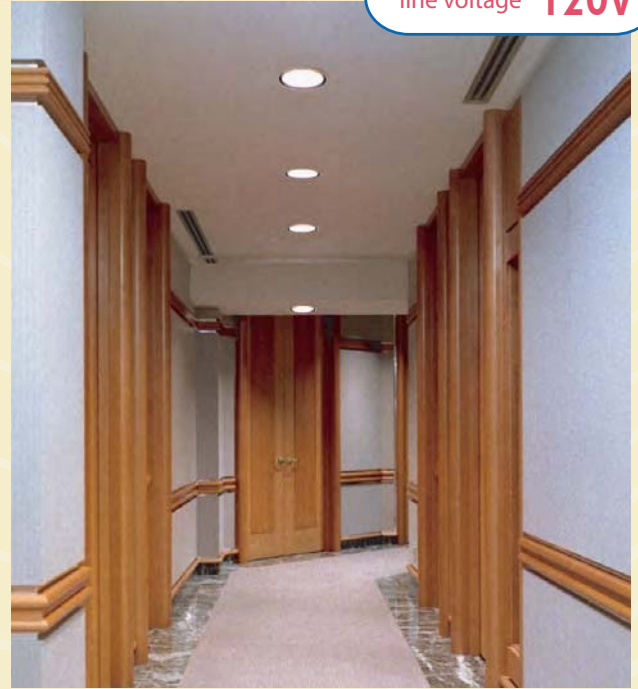

Applications
- **Remodel applications**
- **Insulated or non insulated ceilings**
- **T-Bar ceilings**
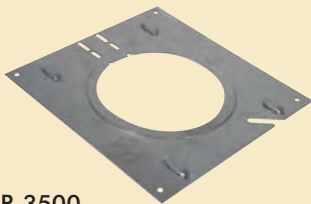

P-3500
3.5" New Construction pre-mounting plate for use with 3.5" or 4" remodel housings used in new construction applications

HV5-5999-NCP
Hanger bars fo use with New Construction Housing Plate

Lamps (Line Voltage)
- **MR16 E26, CF, R20/PAR20, PAR30L and BR30, 75W max.**
