¹For the U.S. only: The nominal current of the unit must not exceed 80% of the capacity of the disconnect.

²The option "sealed element" increases the reliability of these in humid environments. It does not completely eliminate the leakage currents of metal sheathed heating elements.

³Off position.

Add "BL" for white, "AM" for almond.

Upcharge applicable for optional colors shown in the color chart section.

For options available as factory installed and kit, if not mentioned on the order, will automatically be shipped as a kit.
