

Federal Government Fiscal Year End Solutions

Top Brands and Unmatched Services

With leading industry brands, an unmatched services portfolio and deep industry expertise, our goal is to provide you with seamless end-to-end support from concept, to design, to deployment.

Panelboards

Product Description
240V AC maximum.

- 3-phase 4-wire, 3-phase 3-wire, 1-phase 3-wire, 1-phase 2-wire.
- 600 ampere maximum main lugs.
- 400 ampere maximum main breaker.
- 100 ampere maximum branch breakers (2 Pole 125A).
- Bolt-on branch breakers.
- Tin plated aluminum bus or silver plated copper bus.
- Factory assembled.

Application Description

- Fully rated or series rated.
- Interrupting ratings up to 200 kA symmetrical.
 - Suitable for use as Service Entrance Equipment, when specified on the order.

Eaton Enclosed Meter

Stand-alone, enclosed meters are ideal for new metering applications where no metering existed previously, retrofit installations or where ease of installation is required.

Features/benefits

- Saves installation time and cost
- One part number to order; no need to worry that any part has been left out
- Pick the meter you need as it is designed to fit various Eaton® power and energy meters, at varying price points.

SURGE PROTECTIVE DEVICES

Features

- Thermally protected metal oxide varistor (MOV) technology
- Tri-colored LED protection status indicators
- 20 kA nominal discharge current (In) rating (maximum rating in the UL® 1449 4th Edition standard)
- 50 through 200 kA per phase peak surge current capacity ratings
- Configure-to-order with eight custom feature combinations
- Corrosion-resistant NEMA 4X enclosure with mounting feet
- 200 kA short-circuit current rating (SCCR)
- Factory prewired with 36 inches of 10 AWG wire
- No user-serviceable parts or items requiring periodic maintenance
- Five-year warranty that can be extended to 10 years with product registration at Eaton.com/spc

Replace your driver with one from an
**OFFICIAL OEM-RATED
MANUFACTURER**

The **TOUCHtoTUNE** app allows you to read from or tune the following features of a compatible driver:

- Output Current
- Minimum Dim Current
- Dimming Curve
- Full Bright Control Voltage
- Minimum Dim Control Voltage
- Dim-to-off Control Voltage

LED Drivers are an emerging replacement market opportunity for distributors. As LED fixtures fall out of the warranty period, customers will begin to come to electrical distributors for replacement. Distributors want to be able to easily identify the driver needed, stock the most common driver and provide their installers with a quick solution.

Universal has been at the heart of many OEM luminaires for over a decade, so who best to figure out how to handle the emerging LED Driver replacement market.

Universal is pleased to offer a comprehensive way to tune replacement drivers that is quick and easy; just Touch to Tune. Universal's Touch to Tune app utilizes Near-Field Communication (NFC) within the smart phone to communicate with the driver to send information between the devices. You are able to read and write (tune) from and to compatible PW or PWX drivers using a compatible Android* device.

Klein Tools

Diagonal Cutting Pliers, Heavy-Duty, High-Leverage, 8-Inch (D2000-28)

Cut ACSR, screws, nails and most hardened wire. Pliers have high-leverage design, with rivet closer to the cutting edge for 36-Percent greater cutting power than other plier designs.

Lineman's Pliers, 9-Inch (D2000-9NE)

Cut ACSR, screws, nails and most hardened wire. High-leverage design. Rivet is closer to the cutting edge for 46-percent greater cutting and gripping power than other plier designs.

Insulation Resistance Tester (ET600)

Voltage Tester tests insulation resistance up to 4000MΩ at 125V, 250V, 500V, and 1000V DC.

Advanced Circuit Tracer Kit (ET450)

The Advanced Circuit Tracer Kit provides reliable tracing of energized or non-energized breakers, fuses, and wires.

Hard Hat, Non-Vented, Cap Style, Blue (60248)

Unique suspension system features a flexible open frame design to provide optimal fit and improved air circulation. Accessory mounts front and back to secure Klein Headlamps.

Hard Hat, Non-Vented, Cap Style, White (60100)

Unique suspension system features a flexible open frame design to provide optimal fit and improved air circulation. Accessory mounts front and back to secure Klein Headlamps.

Rechargeable Headlamp, 400 Lumens, All-Day Runtime (56048)

Rechargeable 400 lumen Auto-Off LED Headlamp has 3 modes: All-on/Boost at 400 lumens for 4 hours, Spotlight at 200 lumens for 12 hours, and 22 hour runtime Floodlight at 100 lumens.

Heavy Duty Knee Pad Sleeves M/L (60511) or L/XL (60611)

Ergonomically engineered flexible padding with anti-abrasion layers keeps knee pads close to the body for a second-skin fit allowing for agility when working in tight spaces.

Digital Clamp Meter, AC Auto-Range TRMS, Low Impedance (LoZ), Auto Off (CL800)

Clamp Meter with automatically ranging true mean squared (TRMS) technology for increased accuracy. Test leads measure AC/DC voltage, resistance, continuity, frequency and capacitance and tests diodes.

Digital Multimeter, TRMS Auto-Ranging, 1000V, Temp, Low Impedance (MM720)

Tester measures up to 1000V AC/DC voltage, 10A AC/DC current and 60 MOhms resistance plus temperature, capacitance, frequency, low impedance (LoZ), duty-cycle, test diodes and continuity.

GFCI Receptacle Tester with LCD (RT250)

GFCI Receptacle Tester features a large backlit LCD readout of voltage and clear indication of wiring conditions.

Flip Impact Socket Set, 7-Piece (66070)

Flip Impact Socket Set includes ten sizes combined into five sockets plus two nested adapters (3/8 x 7/16-Inch, 1/2 x 9/16-Inch, 5/8 x 11/16-Inch, 3/4 x 13/16-Inch, and 7/8 x 15/16-Inch).

PowerBox 1, Magnetic Mounted Power Strip with Integrated LED Lights (29601)

Four 120V AC outlets, two USB-A ports and one PD capable USB-C port with built-in surge protection with LED indicator to protect your equipment from electrical spikes.

Portable Power Station, 1500W (KTB1000)

Charge and power up to 11 devices simultaneously with 1500W of Pure-Sine Wave AC power, fast charge to 80-Percent in 2.5 hours.

60W Portable Solar Panel (29250)

60-watt foldable solar panel capable of charging KTB1000 and KTB500 power stations or other APP® compatible devices.

Hybrid Pliers with Crimper, Fish Tape Puller and Wire Stripper (J2159CRTP)

Pliers strip 10-14 AWG solid and 12-16 stranded wire, pulls 1/8-Inch or 1/4-Inch (3 or 6 mm) flat steel fish tape and crimps non-insulated connectors, lugs and terminals.

Rigid to EMT Set Screw Coupling - Steel (391-S)

Used to join EMT to rigid or IMC. Concrete-tight. 1/2" x 1/2". Various sizes available.

EMT to Rigid Wet Location Combination Coupling (290-RT)

Used to make transition from Rigid Metallic Conduit. IMC to EMT in wet and dry locations.

Raintight RIGID to Liquid tight Transition Fittings -Malleable Iron Body with Steel Ferrule (4370-LT)

For creating a Liquidtight/Raintight Connection between 2 different Raceways: 1/2" Rigid Conduit (GRC & IMC) and 1/2" Liquidtight Flexible Metallic

Nonmetallic Split Bushing (SB-383NM)

Used in situations where an insulated bushing is needed to protect conductors. 1". Various sizes available.

Mighty-Rite Split Grounding Bushings - Zinc Die Cast, Nylon Insulator, tin plated Aluminum alloy lug (SGB-382CL)

Used in situations where wires have already been pulled through conduit or EMT fittings, LUG #14-4 AWG 3/4, various sizes available.

Split Bushing, Threadless, Insulated, Grounding (SGBTL383CL)

Zinc Die Cast. 1". 14-4 Grounding Lug.

One piece clamp back and strap combination, 1 hole, Stainless Steel (UCSS-5075)

The one piece clamp back and strap secures both cable and conduit. 1/2" - 3/4" Trade Size.

Mighty-Merge® Transition Fittings 3/4" EMT to Duplex AC/MC Coupling (4157-DC)

Set Screw type transitional fitting ideal for commercial and institutional facilities.

Connector, Liquid Tight (470-SLT)

90 Degree connector for use with metallic liquid tight conduit.

Transition Coupling, Rigid/IMC Conduit to Liquidtight FMC, 1/2 Inch, NPT Threads (4370-LT)

For creating a Liquidtight/Raintight Connection between 2 different Raceways: 1/2" Rigid Conduit (GRC & IMC) and 1/2" Liquidtight Flexible Metallic Conduit (LFMC).

EMT Conduit Body With Integral Raintight Connector, Set Screw, Aluminum, (LB-42RT)

Allows access to the interior of a conduit system for inspection, pulling and maintenance, without needing to thread connectors into a conduit body entry. Type LB, 3/4".

EMT Conduit Body With Integral Raintight Connector, Set Screw, Aluminum (LLR-42RT)

Bridgeport's LLR Conduit Bodies are Type LL/LR Combination conduit bodies with Integral Raintight Connectors. Type LLR, 3/4".

DID YOU KNOW?

Wesco has an Energy Solutions division?

From the initial survey of your industrial facility to our final commissioning, WESCO Energy Solutions (WES) delivers the necessary, tightly-integrated, value-added services and deep expertise to make your project a resounding success. The entire process is streamlined to be as simple as possible and is designed to deliver fast results.

SURVEYS & AUDITS

We specialize in Investment Grade Audits that allow us to create the most energy efficient design possible.

SYSTEMS DESIGN

We provide a fully realized system design. Solutions and proposals include photometric analysis, 3-D rendering and CAD layouts.

LIGHTING CONTROLS

We develop, design and commission lighting management and building management systems, as well as provide mandatory building integration and perform electrical evaluation.

REBATES

We research available rebates and incentives, tailor the project to maximize funds, and deliver a projected total. We manage the paperwork and approval process to secure all projected funds.

REGIONAL CONTRACTOR MANAGEMENT

We have an in-house team of installers supplemented by a network of qualified partners to perform ISN-compliant system installations. We ensure efficient work, clear access and daily progress reporting through ongoing supervision.

REGULATIONS & CERTIFICATIONS

We secure the required certificates, licenses and permits and stay current on all new legislation, codes and statutes affecting the project. When we provide recycling as a value-added service, we can provide certificates of recycling.

FINANCE

Our investment analysis incorporates rebates and incentives, indicating the cost of ownership and expected energy and maintenance cost savings of our strategies. We can also help customers get financing through third-party lenders.

CUSTOMER SERVICE

We offer warranty management and support services including maintenance, customized reporting, summary invoicing, remote monitoring and retrocommissioning of energy monitoring and management systems.

SAFETY MANAGEMENT

We monitor safety compliance reporting and training throughout the country, as well as the safety performance of our subcontractor network.

PURCHASING

Our “product-agnostic” approach lets us specify the best products and materials from a wide range of manufacturers at the most competitive pricing.

Electric-Vehicle (EV) Charging Stations

In the electric transportation space, WESCO offers industry-leading products for electric vehicle charging. We partner with leading manufacturers and charging network managers to fulfill EV drivers' needs wherever they may be. Our line of EV charging stations are suitable for home, multi-residential, commercial and fleet properties and can be customized to meet your EV charging requirements.

T8 Light (Item #579292 15T8/COR/48-850/MF21/G/120-347V 25/1)

Philips T8 LED lamps offer instant energy savings versus fluorescent with excellent light quality, long life and superior warranties. The Philips InstantFit Type A lamps have the widest range of ballast compatibility in the industry with over 15,000 lamp/ballast combinations. The Philips MainsFit Type B lamp bypasses the ballast for simple retrofit, featuring a double-ended design and a proprietary safety circuit for worry-free installation. Available in sizes from 2 – 8-ft. linear, U-bent and in a variety of colour temperatures and lumen outputs.

Day-Brite HCY High Bay

Wide range of options built-in and accessories available. 120-347V. Item #HCY2833L8CST-UN3-DIM

Lightolier Commercial Retrofit Downlight dual select

Retrofit existing pot lights - various options built-in. Available sizes 4, 6, 8, 10". Item #CR4RLMCCT

Day-Brite SDS LED Strip

4-ft. dimmable LED strip, various options built-in. Item #SDS42448L8CST-UN3-DIM

Day-Brite SDS LED Strip

8-ft. dimmable LED strip, various options built-in. Item #SDS84998L8CST-UN3-DIM

Day-Brite VTC Sealed LED Strip

4-ft., 3600 lumens, 4000K, 80 CRI, UNV. Item #VTC436L840-UNV

Day-Brite CFI

The built-in occupancy sensor and color selectable light output offer complete versatility.

OFM Standard Baseboard Heater (OFM0302)

More compact than any other heater on the market while offering a high level of performance and strength.

OCE European-Style Convector (OCEM0500-T600)

Comes in three different heights and can be equipped with a built-in electronic thermostat (TH) or teamed with a wall-mounted electronic thermostat (OTH).

ORC Radiant Cove Heater (ORC0452)

Small residential and light commercial heater, instal on the wall where space is limited.

OVS Residential Wall Fan Heater (OVS0502)

Designed for areas where space is limited. Four mounting positions are available.

OTP-O Olympia Ductless Single Zone Heat Pump (UHD09KCH38SB-O)

Produces about four times more heat than a traditional electric heating system, as well as offering air conditioning.

Heating Cable for Snow Melting on Mat (Series OWS-T)

Mat with flexible strips designed for outdoor applications. Simply unroll and voila! Eco-friendly, limiting the need for salt or sand.

120V Preassembled Self-Regulating Heating Cable (Series OSR-PI)

Helps prevent roof damage and leaking caused by ice. Suitable for shingle, rubber/tar, wood, metal and plastic roofs as well as wood, metal and plastic gutters.

All Purpose Self-Regulating Heating Cable ELSR-NA (Series OSR-NA)

The cables are approved for non-hazardous and hazardous locations, and rated for wet locations and outdoor use.

OCF Patio Infrared Heater (CF15120B)

Generates instant, infrared directional warmth but emit only a pleasant, soft ambient glow.

OAC Commercial Wall Fan Heater (Series OAC)

Provides a burst of heat in areas affected by cold drafts. Can be recessed or surface-mounted.

ODS Ceiling Fan Heater (Series ODS)

Driven by a powerful motor, the fan creates circulation by blowing the warm air accumulation near the ceilings downward.

HX Range Commercial Air Curtain (Series ORA-HX)

Ideal solution for areas where noise levels must be kept to a minimum; the heating capacity is high and the exterior environment is unpleasant.

Portable Construction Heater (Series OCC)

Designed for workplaces requiring temporary back-up heating. Features a totally enclosed motor that prevents dust accumulation, thereby increasing the lifespan of the heater.

Commercial Industrial Suspended Unit Heater (Series OAS)

Designed for areas requiring a high level of air flow. This unit heater may be mounted horizontally or vertically. A variety of control options are available in kits.

Explosion-Proof Unit Heater (Series OHX)

For hazardous locations, designed for rugged industrial applications where there is a possibility of explosion or fire.

Vertical Unit Heater (Series OAV)

Designed to heat buildings with high ceilings. This vertical unit heater can be used to recirculate the warm air accumulated near ceilings.

Wesco Safety

Driver Industrial Safety (Safety Whips Canada) - Whip lights (SC4FA)

Super Duty, All Weather Fiberglass Warning Whip. This whip includes an Orange Mesh 16" x 16" flag with a Yellow Reflective "X".

Gearkeeper - Fire / Mic retractor (RT4-4112)

The Standard CB Mic Keeper revolutionized the mounting of a CB Mic in a truck by eliminating the dangling found with bungee cords.

Gearkeeper - Instrument Tether (RT3-7624)

A 360-degree Clamp-On belt clip for the ultimate in durability and security. It also includes a Dual-Axis Rotation Clamp-on belt clip.

Innovative Safety - Level 1 EMS Auto (1010123)

Exceeds every Canadian level 1 provincial regulatory requirement - EMS bag - Ideal for workplaces with low to high level hazards.

Innovative Safety - Level 2 EMS Wall Mount (1010124)

Exceeds every Canadian level 2 provincial regulatory requirement - wall mount kit. Ideal for workplaces with medium-high level hazards.

Justrite Manufacturing - Flammable Cabinet 45 Gallon - Self Close - Manual. (894520)

The Justrite Standard Sure-Grip® EX Flammable Safety Cabinet with is designed to safely store flammable liquids.

Justrite Manufacturing - Oily Waste Can (9100)

6 Gallon, Steel Oily Waste Can, Hands-Free, Self-Closing Cover, Red

MCR Safety - Safety Glasses - Klondike Anti Fog Safety Glasses Clear (710AF)

The KD710AF has a clear UV-AF® anti-fog lens and features a half frame design, has an extremely low profile, and is lightweight.

MCR Safety - Bearkat Safety Glasses Clear (BK219)

The BearKat® BK2 is strategically designed for people with smaller facial profiles, combining the best in safety and comfort.

MCR Safety - Gloves - Lightweight (n9696)

18 Gauge Blue Nylon Shell Polyurethane (PU) Coated Palm and Fingertips. Ninja® Glove Line offers the greatest assortment of dexterity, sense of touch, and protection. The Ninja® Lite features an 18 gauge blue nylon shell and black PU coated palm and fingertips. Latex Free.

Plugfone - Wireless Sovereign (PS-BB)

When used as directed, our products are certified for Noise Reduction Ratings of up to 29 dB, depending on the plugs used.

by ABB

Ty-Rap®

The brands end-users and installers know and trust. With a long-standing reputation for innovation and safety, our products are standards in the electrical industry and trusted by engineers, contractors, electricians and installers across Canada and around the world. Our product offering is one of the most comprehensive in the industry, including over 45 recognized brand names and 200,000 products.

Ty-Rap® is the original brand of cable ties and is well known worldwide. Since many years, the Ty-Rap brand has become the common denomination for a cable tie. With its innovative design and a broad range of available materials, Ty-Rap cable ties are the perfect solution for any application where performance and reliability really matter.

STAR TECK

A pioneer in the design and manufacture of teck cable fittings, the STAR TECK® product line remains an indisputable industry standard to this day. Designed and manufactured in Canada to meet the unique challenges of Canadian industry.

Iberville

Superstrut®

The Iberville® brand name is the most recognized brand of steel boxes, covers, commercial-grade fittings, and roughing-in products in the Canadian electrical industry.

marrette®

Marrette wire connectors remain a Canadian industry standard to this day. All Marrette products, including the most recent PRO-BLU wire connector, are designed and manufactured in Canada at our plant in Pointe-Claire, Quebec.

Making procurement easy

- For requirements where the estimated price does not exceed **\$5,000**, all-inclusive (taxes included): Bid solicitations may be directed by the Identified User (IU).
- For requirements where the estimated price is between **\$5,000 and \$25,000**, all-inclusive (taxes included): Bid solicitations are to be issued by the Identified User (IU) to at least three (3) Supply Arrangement holders authorized for the region of delivery.
- For requirements where the estimated price is between **\$25,000 and \$400,000**, all-inclusive (taxes included): Bid solicitations are to be issued by the Identified User (IU) to all Supply Arrangement Holders authorized for the region of delivery.

Turnkey solutions for energy-efficient lighting upgrades

DEEP RESOURCES. UNMATCHED EXPERTISE.

No one else has the depth of resources and expertise WESCO Energy Solutions (WES) brings to your project.

- 50 years experience in lighting retrofits and upgrades
- More than 10,000 sites completed in North America
- 75 million square feet of energy-efficient lighting installed
- Industry-leading expertise in the latest lighting technologies including superior data encryption and security

Lighting and control upgrades for educational and government facilities can typically provide a 40-70% reduction in lighting energy costs.

TAKE CONTROL OF YOUR ENERGY USAGE — AND SAVE.

Successful projects in thousands of locations have made WES uniquely qualified to analyze your needs and deliver complete lighting solutions that address your specific priorities, challenges and goals. We can help you dramatically drive down energy consumption and costs in offices, classrooms, lobbies, gyms and auditoriums while making streets, walkways, parking areas and public spaces safer and more accessible at night.

The WES team delivers a comprehensive portfolio of value-added services and deep expertise. From the initial system survey to the final commissioning, we are known for our unmatched expertise and world-class project execution. We offer access to lighting and control products from a broad range of manufacturers, so we can engineer the right mix of products to meet your requirements in today's high-performance buildings.

Turnkey solutions for energy-efficient lighting upgrades

“We needed better lighting to let our athletes fully excel on the basketball court. With the installation of the new system by WES, our coaches, staff, students and the community rave about the improvement in light quality.”

— Dave Marshall, Facilities Director, Ventura United School District

“I couldn’t be happier that the folks at WES have been able to help us install such a great, high-tech solution that seamlessly replaced our outdated lamps.”

— Michael Lynch, Director of Public Works, City of Durham, NC

“We were looking to cut our energy consumption and reduce our labor needs without going over our budget. The WES retrofit delivered increased light levels with reduced system wattage.

— Blair Mochrie, Trade Services Manager, University of Toronto

ABOUT WESCO ENERGY SOLUTIONS

WESCO Energy Solutions (WES) is a global technology leader in products, services and network based advanced controls for both interior and exterior lighting. Uniquely qualified to manage large turnkey projects across North America, we offer our customers a single point of contact to survey existing systems, perform energy audits, design lighting and control system upgrades, integrate with building management systems, complete installations and optimize rebates. And our in-house Customer Design Center offers an engineering team with vast electrical and architectural design experience for a new generation of lighting solutions. This one-source approach streamlines the end-to-end process and offers direct access to the latest lighting technologies, delivering increased energy efficiency with reduced operating costs and environmental impact.
